

May News:

The environmental leaders attended Green school at Carrum Primary School this month. They did a fantastic job presenting their project on developing a new Green Scene area. Students took part in feeding Carrum's goats, a cooking class, visiting the Bird Avery and many other fun stations. They came back inspired and with heaps of ideas for our school.

Our Mother's Day Stall was a success. Students grew coriander, parsley and basil from seeds and decorated the pots with pink hearts and ribbon. They were very popular and sold quickly at the stall!

The Foundation students did some planting for their Healthy Me Topic. Students planted peas, spinach, carrots and lettuce and are looking forward to making healthy wraps early next term.

Our favourite cooking from this month: Japanese Pancakes! YUM!
